I. CEQA STATUS

Please check the **one** box that describes the project in this application.

- ☐ The CEQA process has not yet started for this project ☐ The CEQA process is underway for this project* ☐ The CEQA process is complete for this project (**complete Question 2 below**) ☐ The CEQA process was completed for this project more than 5 years prior to anticipated State Water Board agreement execution date** (**complete Question 2 below**)

* A draft of the CEQA document shall be provided to the Division for review and comment. Also provide to the Division copies of any substantiating federal cross-cutter information (i.e., USFWS species list/biological assessment, cultural resources report, air quality analysis data, flood map, etc.). This will enable the Division to better understand the environmental impacts, and provide more meaningful comments on the draft CEQA document before it is sent to the State Clearinghouse.

** If the CEQA document was prepared more than five years prior to the anticipated assistance agreement execution date, please provide an updated CEQA document (subsequent, supplemental or addendum) that evaluates the current environmental status of the project.

Applicant Name:

Project Title:

1. Federal Clean Air Act:

Air Basin Name: _____

Local Air District for Project Area: _____

Is the project subject to a State Implementation Plan (SIP) conformity determination?

☐ No - The project is in an attainment or unclassified area for all federal criteria pollutants.

☐ Yes - The project is in a nonattainment area or attainment area subject to maintenance plans for a federal criteria pollutant. Include information to indicate the nonattainment designation (e.g. moderate, serious, severe, or extreme), if applicable. If estimated emissions (below) are above the federal *de minimis* levels, but the project is sized to meet only the needs of current population projections that are used in the approved SIP for air quality, then quantitatively indicate how the proposed capacity increase was calculated using population projections.

• The Lead Agency shall provide the estimated project construction and operational air emissions (in tons per year) in the chart below, and attach supporting calculations, regardless of attainment status.

• Also, attach any air quality studies that may have been done for the project.

Pollutant	Federal Status (Attainment, Nonattainment, Maintenance, or Unclassified)	Nonattainment Rates (i.e., moderate, serious, severe, or extreme)	Threshold of Significance for Project Air Basin (if applicable)	Construction Emissions (Tons/Year)	Operation Emissions (Tons/Year)
Ozone (O ₃)					
Carbon Monoxide (CO)					
Oxides of Nitrogen (NO _x)					
Reactive Organic Gases (ROG)					
Volatile Organic Compounds (VOC)					
Lead (Pb)					
Particulate Matter less than 2.5 microns in diameter (PM _{2.5})					
Particulate Matter less than 10 microns in diameter (PM ₁₀)					
Sulfur Dioxide (SO ₂)					

2. Coastal Barriers Resources Act:

Will the project impact or be located within or near the Coastal Barrier Resources System or its adjacent wetlands, marshes, estuaries, inlets, and near-shore waters? Note that since there are currently no Coastal Barrier Resources System in California, projects located in California are not expected to impact the Coastal Barrier Resources System in other states. If there is a special circumstance in which the project may impact a Coastal Barrier Resource System, indicate your reasoning below.

- ☐ No - The project will not affect or be located within or near the Coastal Barrier Resources System or its adjacent wetlands, marshes, estuaries, inlets, and near-shore waters, explain:
- ☐ Yes - Describe the project location with respect to the Coastal Barrier Resources System, and the status of any consultation with the appropriate Coastal Zone management agency and the United States Fish and Wildlife Service:

3. Coastal Zone Management Act:

Is any portion of the project site located within the coastal zone?

- ☐ No - The project is not within the coastal zone, explain:
- ☐ Yes - Describe the project location with respect to coastal areas and the status of the coastal zone permit, and provide a copy of the coastal zone permit or coastal exemption:

4. Federal Endangered Species Act (ESA):

Does the project involve any direct effects from construction activities, or indirect effects such as growth inducement that may affect federally listed threatened or endangered species or their critical habitat that are known, or have a potential, to occur on-site, in the surrounding area, or in the service area?

• **Required documents: Attach project-level biological surveys, evaluations analyzing the project's direct and indirect effects on special-status species, and an up-to-date species list (from the United States Fish and Wildlife Service, the California Natural Diversity Database and the California Native Plant Society) for the project area.**

- ☐ No - Discuss why the project will not affect any federally listed special status species:
- ☐ Yes - Provide information on federally listed species that could potentially be affected by this project and any proposed avoidance and compensation measures so that the State Water Board can initiate informal/formal consultation with the applicable federally designated agency. Explain any previous ESA consultations /coordination conducted with the National Marine Fisheries Service or US Fish and Wildlife Service for the project:

5. Environmental Justice:

Does the project involve an activity that is likely to be of particular interest to or have particular impact upon minority, low-income, or indigenous populations, or tribes?

- ☐ Yes - If you answer yes, please check at least one of the boxes and provide a brief explanation below:
- ☐ The project is likely to affect the health of these populations.
 - ☐ The project is likely to affect the environmental conditions of these populations.
 - ☐ The project is likely to present an opportunity to address an existing disproportionate impact of these populations.
